Treatment of Pituitary Diseases

HOSPITAL
Acibadem Altunizade Hospital, İstanbul

DEPARTMENT
Neurosurgery

CLINICAL FOCUS

Dr. Bozkurt evaluates and treats a range of intracranial conditions, including deep-seated brain tumors, gliomas, meningioma, brain aneurysms, hematoma and arachnoid cysts. He also manages hydrocephalus and pituitary disease, the latter forming his declared subspecialty area.

In spinal neurosurgery, his areas of expertise include lumbar and cervical spinal stenosis, spinal cord injuries, and spinal and spinal cord tumors. He performs spinal fusion surgery where it is considered appropriate after clinical and radiological assessment.
