CLINICAL FOCUS

A significant part of Dr. Kahraman's practice concerns trauma and injury-related presentations. In the emergency setting, this involves a structured initial assessment, attention to the airway, breathing, and circulation, and a decision about which examinations or imaging are needed before further treatment is planned. He also sees patients with insect bites and stings, including bee stings and tick bites.

Dr. Kahraman's areas of interest also include environmental emergencies. These include drowning, acute hypoxia, and airway obstruction, all of which are conditions in which the immediate priority is to secure oxygenation and ventilation. Emergency care in these situations is time-sensitive, and his work involves rapid recognition of the problem, stabilization of the patient, and involvement of other departments for ongoing...

INTERNATIONAL PATIENTS

Dr. Kahraman consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. The Acibadem international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes, and discharge summaries, and arranges appointments and the hospital visit.
