CLINICAL FOCUS

The core of Dr. Malişi's work is emergency assessment: the structured evaluation of a patient on arrival, identification of the presenting problem and prioritisation of care according to clinical urgency. He manages urgent medical conditions and acute illness across a broad range of presentations, and provides injury care for patients who arrive after accidents or trauma.

Emergency care rarely involves a single physician alone. Dr. Malişi is also responsible for emergency care coordination, which includes arranging the investigations needed to clarify a diagnosis, involving other hospital specialties when a patient's condition requires it and organising the transition from the emergency department to admission, observation or discharge.

INTERNATIONAL PATIENTS

Dr. Malişi consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. For international patients, the hospital's international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges...
