Acibadem Fulya Hospital,
İstanbul

DEPARTMENT

Orthopedics & Joint Center

CLINICAL FOCUS

Dr. Toker's practice centers on degenerative and traumatic conditions of the hip, knee, foot and ankle. He treats patients with joint diseases and osteoarthritis, and performs knee replacement surgery and hip replacement surgery where conservative measures are no longer sufficient and surgery is considered appropriate after clinical and...

A second area of his work is sports traumatology and knee and joint injuries, including cruciate ligament tears, meniscus tears and muscle tear treatment. He also provides foot and ankle surgery for patients with conditions affecting these joints.
