Anesthesiology &
Reanimation

CLINICAL FOCUS

Anesthesiology and reanimation covers the care of patients before, during and after procedures that require anesthesia, as well as the care of patients whose vital functions need close monitoring or support. Within this field, Dr. Türkay's interests include intensive care treatment, which involves the monitoring and management of seriously ill patients in a dedicated setting, and advanced life support, which refers to the...

Dr. Türkay also has a professional interest in palliative care. Palliative care aims to relieve symptoms and to support comfort and quality of life for patients with serious illness. It is provided alongside other medical treatment and is planned together with the patient, the family and the wider treating team. For international patients, Dr.

Advanced Life Support

INTERNATIONAL PATIENTS

Dr. Türkay speaks Turkish and English, and interpreters can be arranged for patients who speak other languages. The Acibadem international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and also arranges appointments and organizes the hospital...
