CLINICAL FOCUS

Dr. Cengiz evaluates and treats orthopedic conditions in both children and adults. His areas of expertise include knee and joint injuries, anterior cruciate ligament tears and meniscus tears, as well as sports medicine and sports traumatology.

He also works in orthopedic oncology, including the assessment and management of bone tumors, in deformity surgery, and in pediatric orthopedics. Treatment decisions are made after a review of the individual patient's history, imaging and clinical findings, and non-surgical as well as surgical options are considered where appropriate.
