Acibadem Fulya Hospital,
İstanbul

DEPARTMENT
Neurology

CLINICAL FOCUS

Dr. Çitçi evaluates and treats adults with a range of neurological conditions. Her areas of expertise include migraine and other headaches, dizziness, epilepsy and multiple sclerosis. She also sees patients with memory loss, Alzheimer's disease and other forms of dementia, where assessment aims to clarify the cause of cognitive change...

In line with her subspecialty training, Dr. Çitçi provides movement disorder treatment, including care for patients with Parkinson's disease, and stroke treatment and prevention, drawing on her vascular neurology specialization.
