CLINICAL FOCUS

Dr. Çabuk's work centers on diagnostic imaging within a hospital-based radiology pathway, with imaging assessment coordinated alongside the relevant clinical teams. Her listed areas of expertise also cover vascular conditions and interventional approaches: coronary steal and its endovascular treatment, arteriovenous fistula,...

Publications listed with her profile address these same topics. They include Endovascular treatment of coronary steal (Cardiovascular Revascularization Medicine, 2011) and Use of a balloon and N-butyl-2-cyanoacrylate for treatment of arteriovenous fistula (Cardiovascular and Interventional Radiology, 2008).

Diagnostic imaging

Coronary steal

Endovascular treatment of coronary steal

Arteriovenous fistula

Balloon-assisted arteriovenous fistula embolization

CONDITIONS TREATED

Coronary steal

Arteriovenous fistula

Balloon-assisted arteriovenous fistula embolization
