Diagnosis and Treatment of Prostate...

HOSPITAL
Acibadem Altunizade Hospital, İstanbul

DEPARTMENT
Urology

CLINICAL FOCUS

Prostate disease is a central part of Dr. Özveren's practice. He assesses and treats prostate cancer and benign prostatic hyperplasia, and his surgical work includes robotic and laparoscopic approaches.

His practice also covers kidney and urinary tract conditions, including kidney cancer, kidney stones, hydronephrosis and hematuria. For stone disease he performs minimally invasive stone surgery. In addition, he performs circumcision.
