İstanbul

DEPARTMENT

Orthopedics & Joint Center

CLINICAL FOCUS

A central part of Dr. Alpan's practice is orthopedic oncology. He evaluates and treats patients with bone tumors and soft tissue sarcomas, and he also manages pediatric bone cysts. His oncologic surgery work involves the surgical assessment and planning of musculoskeletal tumors, an area in which the choice of approach depends on the...

Dr. Alpan's practice also covers deformity surgery for the correction of limb and skeletal deformities, wound care for patients with complex or slow-healing wounds, and minimally invasive trauma surgery, in which fractures and related injuries are addressed through smaller incisions where this is clinically appropriate.
