HOSPITAL

Acibadem Etiler Outpatient Clinic, İstanbul

DEPARTMENT

Orthopedics & Joint Center

CLINICAL FOCUS

The core of Dr. Özmen's practice is musculoskeletal trauma. He evaluates and treats traumatic musculoskeletal injuries, drawing on his experience in trauma surgery to manage injuries that require operative care.

Where an operation is considered appropriate, Dr. Özmen provides orthopedic surgical treatment. The choice between conservative and surgical management depends on the individual injury or condition, the patient's overall health and their personal circumstances, and these factors are discussed with the patient as part of the planning process.

INTERNATIONAL PATIENTS

Dr. Özmen consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge...
