CLINICAL FOCUS

Dr. Soyupak's clinical work covers a broad range of adult urology, with a particular focus on robotic urologic surgery and urologic oncology. He evaluates and treats kidney diseases, including kidney cancer, kidney stones and hydronephrosis, as well as bladder cancer and prostate cancer.

In andrology, he sees men with male infertility and provides sexual dysfunction treatment. He also manages sexually transmitted infections, urethral diseases and urogynecological and pelvic floor conditions.
