CLINICAL FOCUS

Dr. Tucer's areas of expertise cover conditions affecting the brain, spine and nervous system in both adults and children. In spinal care, he treats lumbar and cervical spinal stenosis (narrowing of the spinal canal), disc herniation, and neck, back and low-back pain, and he performs spinal injections and rhizotomy where these are...

His subspecialty is movement disorders treatment, and he is involved in epilepsy surgery as part of the assessment and care of patients with epilepsy. His board role in the Stereotaxy&Functional&Pain and Epilepsy Group reflects this functional neurosurgery interest.
