Acibadem Ankara Hospital

DEPARTMENT

Orthopedics & Joint Center

CLINICAL FOCUS

Dr. Akan's main area of work is joint replacement of the hip and knee. This includes hip replacement and knee replacement surgery for patients with advanced joint disease, as well as the assessment of patients who may need revision of an existing knee prosthesis.

A second focus is sports traumatology and sports medicine. Dr. Akan evaluates and treats meniscus tears, knee injuries and other joint injuries, including those sustained during sport. Which treatment is appropriate depends on the individual patient, the findings on examination and imaging, and the goals of the patient, and this is...

Sports traumatology

Hip replacement surgery
