Hospital, İstanbul

DEPARTMENT

Orthopedics & Joint Center

CLINICAL FOCUS

Dr. Boynuk treats adults and children with a range of orthopedic conditions. In the knee, his areas of expertise include sports-related knee injuries such as anterior cruciate ligament tear and meniscus tear, as well as hip and knee replacement surgery for joint disease.

A further part of his practice is dedicated to pediatric orthopedics and pediatric hand surgery. He has a particular interest in limb lengthening and extremity reconstruction, reflected in his ASAMI membership and his published work on intramedullary nail lengthening.
