CLINICAL FOCUS

Burcu Aksu Türan is an embryologist at Acibadem Maslak Hospital, working in the In Vitro Fertilization and Reproductive Medicine Center and the pelvic pain treatment unit. Her work centres on the laboratory stages of assisted reproduction, supporting IVF treatment and reproductive medicine care as part of the hospital's fertility team.

Embryologist Burcu Aksu Türan practises at Acibadem Maslak Hospital, where she is part of the In Vitro Fertilization and Reproductive Medicine Center and also contributes to the hospital's pelvic pain treatment unit. Her work focuses on the laboratory side of assisted reproduction — the careful handling of eggs, sperm and embryos that underpins every IVF cycle — carried out with precision and close attention to each patient's...
