CLINICAL FOCUS

A large part of Dr. Uprak's work concerns cardiovascular and respiratory conditions. She evaluates and treats hypertension and heart failure, and sees patients with lower respiratory tract infections and upper respiratory tract diseases.

In the digestive field, she manages gastroenteritis, chronic pancreatitis and fatty liver disease. Her practice further includes kidney failure, anaemia and hyperthyroidism. Where a condition such as kidney failure or anaemia is identified, further investigation is usually directed at establishing the underlying cause before treatment is...
