HOSPITAL
Acibadem Atasehir
Hospital, İstanbul

DEPARTMENT
Gynecology & Obstetrics

CLINICAL FOCUS

A central part of Dr. Yılmaz's practice is urogynecology, which addresses the interaction between the female reproductive system and the lower urinary tract. She evaluates and treats women with urinary incontinence and other concerns related to bladder health.

Dr. Yılmaz also provides menopause care, supporting women through the hormonal changes of this period and the symptoms that may accompany them. Her practice includes the treatment of sexual dysfunction, an area in which physical, hormonal and personal factors are considered together. In addition, she offers endometriosis treatment;

Urogynecology

Urinary incontinence

Bladder health

Menopause care

Sexual dysfunction treatment

INTERNATIONAL PATIENTS

Dr. Yılmaz consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. The hospital's international patient team coordinates the collection of prior reports and imaging, arranges appointments and organizes the hospital visit.
