CLINICAL FOCUS

A central part of Dr. Baysal's practice is the care of patients with inflammatory bowel disease, including Crohn's disease and ulcerative colitis. These are long-term conditions, and management generally involves confirming the diagnosis, assessing the extent and activity of the disease, and following the patient over time so that...

His subspecialty covers the pancreas, liver and biliary tract. He sees patients with pancreatic diseases, biliary tract diseases and a range of liver diseases, including fatty liver disease and liver failure.
