İstanbul

DEPARTMENT
Urology

CLINICAL FOCUS

Dr. Öbek's practice centers on urologic oncology and minimally invasive, robotic approaches. He assesses and manages prostate cancer, kidney cancer, testicular cancer and bladder tumors. Robotic urologic surgery is one of the surgical approaches used in his practice, and his published work includes techniques related to robot-assisted...

He also treats benign conditions of the urinary tract, including kidney diseases, kidney stones, benign prostatic hyperplasia, urinary incontinence and other aspects of bladder health. Diagnostic procedures such as cystoscopy form part of his work in evaluating bladder disease.
