CLINICAL FOCUS

Her areas of expertise include the diagnosis and treatment of iron deficiency and anemia in children, the diagnosis and treatment of childhood infectious diseases, and upper respiratory tract diseases in children.

A further part of her practice is newborn follow-up. This includes newborn screening tests and the treatment of newborn jaundice, as well as routine monitoring during the early weeks of life. Within the wider field of child and adolescent health, Dr. Yilmaz sees children both for scheduled check-ups and for acute complaints.
