Gynecology & Obstetrics

CLINICAL FOCUS

A large part of Dr. Demirel's work concerns infertility and reproductive medicine. He evaluates and treats couples and individuals with fertility concerns, including women with diminished ovarian reserve, and he offers egg freezing for those who wish to preserve fertility.

In gynecological surgery, Dr. Demirel performs hysterectomy and vNOTES scarless surgery, a transvaginal approach that avoids abdominal incisions. His practice also includes bladder health and urinary incontinence.

Menstrual irregularities Endometriosis treatment
Bladder health and urinary incontinence Hysterectomy Infertility

CONDITIONS TREATED

Menstrual irregularities Bladder health and urinary incontinence
Infertility Diminished ovarian reserve Pregnancy follow-up
