CLINICAL FOCUS

Dr. Köz evaluates and treats a range of cardiovascular conditions. In the area of heart rhythm, he manages arrhythmias and atrial fibrillation. He also assesses patients with heart murmurs, heart valve disease and rheumatic heart disease, as well as myocarditis.

His work in ischemic heart disease covers atherosclerosis, coronary artery disease, and angina and myocardial infarction. In addition, Dr. Köz provides cardiopulmonary rehabilitation, a structured program that may be considered for patients recovering from cardiac or pulmonary conditions.
