CLINICAL FOCUS

Dr. Şahan's clinical focus lies in three related areas: anesthesiology, reanimation and intensive care medicine. In anesthesiology, this involves the assessment of patients before a procedure, the planning and delivery of anesthesia, and monitoring during and after surgery.

He has contributed to peer-reviewed publications in these fields. These include a pilot study on the effects of cerebral oxygen changes during coronary bypass surgery on postoperative cognitive dysfunction in elderly patients, published in the Brazilian Journal of Anesthesiology in 2018, and a historical cohort study on the effects of...
