Acibadem Kozyatagi Hospital, İstanbul

DEPARTMENT
Pediatrics

CLINICAL FOCUS

Dr. Ulusoy's practice covers child and adolescent health across the age range, with an emphasis on preventive follow-up and the assessment of everyday pediatric complaints. Her areas of expertise include:

In practice this means assessing a child's history, growth pattern, feeding or diet, and current symptoms before discussing whether further tests, dietary adjustments, or treatment are appropriate. For infants with suspected lactose intolerance, children with persistent constipation, or those with signs of iron deficiency, she works with families to clarify the likely cause and to plan follow-up.

Lactose intolerance in infants

Childhood constipation

Iron deficiency and anemia in children

Child and adolescent health

Upper respiratory tract illnesses in children

INTERNATIONAL PATIENTS

Dr. Ulusoy consults in Turkish and English, and interpreters can be arranged for families who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as laboratory and pathology results, ultrasound or X-ray reports, and discharge summaries, and arranges appointments and the hospital visit.

CONDITIONS TREATED

Childhood constipation

Iron deficiency and anemia in children

Child and adolescent health

Upper respiratory tract illnesses in children

Monitoring childhood nutritional disorders

Well-child follow-up
