CLINICAL FOCUS

A large part of Dr. Vural's work involves head and neck cancers, including oral cancer, tongue and tongue-base cancer, and salivary gland cancer. Evaluation of these conditions generally begins with a review of the patient's history, examination findings and existing imaging or pathology, after which surgical and other options can be...

In the field of otology, Dr. Vural performs middle ear surgery and cholesteatoma surgery. His throat practice includes tonsillectomy. As with any surgical procedure, suitability depends on the individual patient's diagnosis, general health and preferences, and the approach is decided only after a clinical assessment.
