DEPARTMENT
Gynecology & Obstetrics

CLINICAL FOCUS

Dr. Cündübey's obstetric practice covers pregnancy monitoring and delivery care, including epidural delivery, cesarean delivery and water birth. He follows pregnancies affected by preeclampsia and gestational diabetes, conditions that require closer monitoring of both mother and baby during pregnancy and around the time of delivery.

In gynecology and reproductive medicine, he evaluates and treats menstrual irregularities, polycystic ovary syndrome and infertility, working within the In Vitro Fertilization and Reproductive Medicine Center.

Menstrual irregularities Pregnancy monitoring Delivery care
Epidural delivery Cesarean delivery

CONDITIONS TREATED

Menstrual irregularities Delivery care Preeclampsia
Gestational diabetes Infertility
