CLINICAL FOCUS

A large part of Dr. Çaytemel's practice involves chronic and autoimmune skin diseases. She assesses and treats psoriasis, eczema, urticaria, lichen planus and lichen sclerosus, and other autoimmune skin conditions. She also manages pigmentation disorders, including melasma and vitiligo, as well as hair loss and alopecia areata.

In cosmetic and general dermatology, Dr. Çaytemel treats acne and rosacea. Her areas of practice also include cryotherapy, PRP, medical peels, fractional laser, botulinum toxin applications, mesotherapy, microneedling radiofrequency and non-surgical facial rejuvenation procedures.
