Acibadem Atakent Hospital, İstanbul

DEPARTMENT

Physical Medicine & Rehabilitation

CLINICAL FOCUS

Dr. Başoğlu's clinical work centers on pain treatment and spine health. He evaluates and manages patients with lumbar and cervical disc herniation, frozen shoulder syndrome, myalgia and fibromyalgia.

His practice also includes lymphedema treatment, Parkinson rehabilitation and pelvic floor rehabilitation. These areas often involve longer-term programs in which the specialist monitors progress over time and adjusts the plan as the patient's condition changes.
