CLINICAL FOCUS

Dr. Cesur's surgical practice includes procedures of the breast and face. In breast surgery he performs breast augmentation and breast reduction, and he offers combined body-contouring approaches such as the mommy makeover. His facial work includes rhinoplasty, facelift surgery and buccal fat removal, as well as non-surgical eyelid aesthetics for patients who are considering less invasive options.

Beyond aesthetic surgery, Dr. Cesur has subspecialty interests in cosmetic dermatology and wound care, which sit within the broader field of reconstructive surgery. Whether a particular surgical or non-surgical approach is suitable depends on the individual patient's anatomy, medical history and goals, and Dr.

INTERNATIONAL PATIENTS

Dr. Cesur consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as ultrasound, MRI or CT reports, laboratory results, operative notes and discharge summaries, and arranges appointments and the clinic visit itself.
