İstanbul

DEPARTMENT
Bariatric & Metabolic
Surgery

CLINICAL FOCUS

In endocrine surgery, Dr. Uras treats patients with thyroid disease, where the decision between observation, medical management and surgery depends on the individual diagnosis and findings. He also performs surgery for obesity, including gastric bypass;

His anorectal practice includes the treatment of hemorrhoids and anal fissures, ranging from conservative measures to surgical options depending on severity. He also performs umbilical hernia repair and mastectomy. Dr.
