CLINICAL FOCUS

Dr. Yıldırım's areas of expertise include vascular surgery and the treatment of varicose veins, as well as hemorrhoids, anal fissures, and other anorectal diseases. He also treats umbilical and inguinal hernias and performs gastrointestinal and colorectal surgery.

Beyond abdominal and vascular conditions, his practice extends to breast diseases, thyroid surgery, and burn treatment. Because many of these conditions can be managed in different ways depending on the individual patient, the choice between conservative measures and surgical treatment is made after clinical evaluation and a review of the available findings.

INTERNATIONAL PATIENTS

Dr. Yıldırım speaks Turkish and English, and interpreters can be arranged for patients who need them. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as ultrasound, CT, or MRI reports, laboratory and pathology results, operative notes, and discharge summaries, and arranges appointments and the hospital visit.
