DEPARTMENT

Physical Medicine & Rehabilitation

CLINICAL FOCUS

A large part of Dr. Akalın's practice involves pain management for musculoskeletal and spine-related complaints. He assesses and treats conditions of the spine, including reduced lumbar lordosis and reduced cervical lordosis, as well as facet joint syndrome.

Dr. Akalın also works with patients who have movement disorders, including rehabilitation for Parkinson's disease, and with muscle and nerve diseases that affect strength, mobility or function. In pediatric rehabilitation, his areas of expertise include the assessment and management of pediatric spasticity.
