CLINICAL FOCUS

Cüneyt Karoğlu's clinical work is concentrated in three related areas. Physical rehabilitation covers therapy aimed at restoring movement, strength and day-to-day function after illness, injury or surgery, delivered as part of the care provided within the Physical Medicine & Rehabilitation unit.

Rehabilitation of this kind is typically a stepwise process. Goals are set together with the patient, progress is reviewed at regular intervals, and the program is adapted as function changes. Because outcomes depend on the underlying condition, the patient's general health and the time available for therapy, the pace and scope of a rehabilitation plan are discussed openly and...
