CLINICAL FOCUS

A significant part of Dr. Sivaz's work involves procedural and aesthetic dermatology. She performs botulinum toxin applications, which are used for a range of dermatological indications, and offers treatment for excessive sweating.

Dr. Sivaz also treats hair loss, including pregnancy-related hair loss, and manages warts, including genital warts. Among the methods she uses is cryotherapy, a treatment in which targeted cold is applied to skin lesions.

Botulinum toxin applications

Excessive sweating treatment

Skin rejuvenation and regeneration

Cryotherapy

Hair loss treatment

INTERNATIONAL PATIENTS

Dr. Sivaz consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and any relevant imaging, arranges appointments, and organises the hospital visit.

CONDITIONS TREATED

Excessive sweating treatment

Wart treatment

Genital wart treatment
