HOSPITAL

Acibadem Atasehir Hospital, İstanbul

DEPARTMENT

Orthopedics & Joint Center

CLINICAL FOCUS

A central part of Dr. Gümüş's work is the care of patients with joint disorders, in particular osteoarthritis. Evaluation typically begins with the patient's history and symptoms, a clinical examination and a review of existing imaging, so that the stage of joint damage and the effect of any previous treatment can be understood before options are discussed.

Dr. Gümüş also treats sports and knee injuries, including cruciate ligament tears and meniscal tears, as well as orthopedic trauma. Wound care is a further area of his expertise, and he follows patients who need wound management in connection with orthopedic conditions or after surgery.

Cruciate Ligament Tears

Osteoarthritis

Joint Disorders

Meniscal Tears

INTERNATIONAL PATIENTS

Dr. Gümüş consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge...
