DEPARTMENT

Internal Medicine

CLINICAL FOCUS

Dr. Çukran's practice combines general internal medicine with nephrology. In internal medicine, he assesses adult patients with a range of medical conditions, reviewing symptoms, medical history and existing test results to reach a diagnosis and propose a treatment plan.

His published work includes the abstract TGF-β1 DNA Polymorphisms, Protein Levels and Blood Pressure (September 1998) and TGF-β1 Hyperexpression in African-American and Stage Renal Disease Patients (1998).
