Rehabilitation

CLINICAL FOCUS

The areas of expertise of Deniz Beyza Kılıç are physiotherapy, rehabilitation and functional recovery. Physiotherapy, in general terms, is concerned with the assessment of movement and function and with supporting patients through structured, supervised care. Rehabilitation aims to help patients regain or maintain function and to support everyday activities where function has been affected.

Within the Physical Medicine & Rehabilitation unit, physiotherapy care is planned according to the findings of the assessment and the patient's needs. Rehabilitation is usually a gradual process, and progress is reviewed over time so that care can be adjusted. General information on robotic rehabilitation is available on this site;
