CLINICAL FOCUS

Psychological support forms the core of Deniz Erden's work. Patients who need psychological care alongside their medical treatment can be seen by her as part of their overall care. The nature and extent of this support depend on the individual patient's situation and are decided together with the treating medical team.

A particular part of her work concerns psychological support in the context of kidney transplant. At the hospital's Kidney Transplant Center, psychological support is provided in coordination with the transplant team as part of the kidney transplant process.

- Psychological support
- Kidney transplant psychological support
- Psychology

INTERNATIONAL PATIENTS

Deniz Erden speaks Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as laboratory and pathology results, MRI, CT, X-ray or ultrasound reports, operative notes and discharge summaries, and arranges appointments and the hospital...

CONDITIONS TREATED

- Psychological support
