CLINICAL FOCUS

Dr. Ulaş works in two subspecialty areas: menopause and the treatment of sexual dysfunction. She evaluates and plans care for women with menopausal symptoms and for patients seeking sexual dysfunction treatment, including vaginismus.

In reproductive medicine, she sees patients with infertility and polycystic ovary syndrome. In obstetrics, her work includes pregnancy follow-up and delivery care, with experience in epidural birth, cesarean delivery and water birth. She also performs genital aesthetic procedures, including vaginal whitening and tightening.
