CLINICAL FOCUS

Dr. Eroğlu follows pregnancies from routine antenatal care through delivery, with particular attention to pregnancies that carry additional risk. Her areas of expertise include pregnancy follow-up, detailed pregnancy ultrasound and amniocentesis, as well as the assessment and management of preeclampsia and gestational diabetes.

In delivery care, her practice covers vaginal birth with epidural analgesia, water birth and cesarean delivery. The choice of delivery approach is discussed with each patient in light of her medical history, the course of the pregnancy and the findings of ultrasound and other examinations.
