CLINICAL FOCUS

Dr. Uyan evaluates and treats a range of gynecological conditions, including menstrual irregularities, premenstrual syndrome (PMS), painful menstruation and painful intercourse (dyspareunia). She cares for patients with endometriosis and chronic pelvic pain, and provides evaluation and treatment planning for infertility.

In obstetrics, she provides high-risk pregnancy care, including the management of gestational diabetes. Within urogynecology, she assesses and treats urinary incontinence, other bladder-health symptoms and pelvic organ prolapse.
