CLINICAL FOCUS

Dr. Özer's clinical work covers a broad range of digestive, liver, pancreatic and biliary conditions. In endoscopy, her areas of expertise include ERCP (endoscopic retrograde cholangiopancreatography), which is used in the diagnosis and treatment of biliary tract diseases and pancreatic diseases, as well as capsule endoscopy and PEG tube...

In hepatology, her practice includes liver diseases in general, fatty liver disease and liver failure. She also assesses and treats common upper gastrointestinal complaints such as reflux, gastritis and dyspepsia.
