CLINICAL FOCUS

Dr. Akman evaluates and manages a range of infectious diseases. A central part of her practice involves sexually transmitted infections, including syphilis.

Assessment in these cases typically involves a review of the patient's history and symptoms, laboratory testing to confirm or exclude a diagnosis, and a discussion of treatment and...

She also cares for patients with hepatitis, HIV and AIDS. Care for these conditions is often long term and may include assessment of the current status of the infection, review of previous test results and treatments, and planning of ongoing monitoring. Dr.
