CLINICAL FOCUS

Dr. Erşanlı evaluates and treats a broad range of medical and surgical eye conditions. His areas of expertise include vitrectomy for retinal and vitreous disorders, cataract, glaucoma and keratoconus. He also sees patients with refractive errors such as hyperopia and astigmatism, and assesses candidates for smart lens implantation.

Within his neuro-ophthalmology subspecialty, his listed interests include ocular migraine. He additionally treats amblyopia and pediatric eye diseases, as well as eye surface conditions such as blepharitis and eye allergy.
