Anesthesiology &
Reanimation

CLINICAL FOCUS

Dr. Altun's practice covers anesthesia care and anesthesiology and reanimation. A central part of her work is the preoperative anesthesia assessment, in which the patient's medical history, current medications, previous anesthesia experiences and relevant test results are reviewed so that an anesthesia plan can be prepared in...

Her responsibilities also extend to perioperative care, meaning the period immediately before, during and after a procedure. This includes administering and monitoring anesthesia during the procedure and following the patient in the early recovery phase.
