DEPARTMENT
Dental & Oral Health

CLINICAL FOCUS

Dr. Baysal's field is Oral & Dental Health, covering the assessment and care of the teeth, gums and mouth. On this site, the Dental & Oral Health area includes information pages on a number of restorative and aesthetic treatments, such as composite bonding, laminate veneers and E-Max crowns, as well as more extensive approaches such as full mouth reconstruction.

Gum health is a further part of the field, and the site includes a page on bleeding gums treatment. Whether any particular treatment is suitable for a given patient can only be judged after a clinical examination and a review of the relevant imaging; the pages linked above are for general information and do not replace an individual assessment.

INTERNATIONAL PATIENTS

Dr. Baysal consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the hospital's international patient team coordinates the collection of prior reports and imaging, for example dental X-rays, CT reports, previous treatment records, laboratory results, operative notes and discharge summaries, and arranges appointments and...
