CLINICAL FOCUS

Dr. Gürbüz assesses and manages a range of heart conditions, including heart failure, heart valve disease, arrhythmias and hypertension. He also provides ongoing care for patients with pacemakers.

For selected patients with aortic valve disease who are being considered for a catheter-based approach, he performs transcatheter aortic valve implantation (TAVI). Whether a medical, catheter-based or other approach is appropriate depends on the individual patient's findings and is decided after evaluation of the history, examination and...
