DEPARTMENT
General Surgery

CLINICAL FOCUS

A central part of Dr. Özdemir's practice is the assessment and treatment of anorectal conditions. This includes hemorrhoid treatment, the management of anal fissure and the evaluation of other anorectal diseases.

Her general surgical work also covers cholecystitis, or inflammation of the gallbladder, as well as inguinal hernia and mastectomy. In each of these areas, the choice between observation, non-surgical management and an operation depends on the findings of the examination, the results of imaging and laboratory tests, and the patient's...
