CLINICAL FOCUS

Dr. Şenates works across two main areas of gastroenterology. The first is liver disease, including viral hepatitis and nonalcoholic fatty liver disease. The second is inflammatory and infectious conditions of the bowel, including inflammatory bowel disease, Crohn's disease, collagenous colitis, chronic diarrhea and intestinal...

His published work reflects these interests. Among his listed publications are studies on nonalcoholic fatty liver disease, including its characterization when unrelated to the metabolic syndrome and the study of serum hepcidin and plasma fibrinogen-like protein 2 levels in affected patients;

Viral hepatitis

Nonalcoholic fatty liver disease

Inflammatory bowel disease

Crohn's disease

Collagenous colitis

CONDITIONS TREATED

Viral hepatitis
